

Citizen Engagement in the 21st Century

A Modern Citizen Experience

Connecting your Community

Cities and counties today face challenges bigger than ever with infrastructure, budgets, compliance and an aging population.

Residential and commercial citizens today expect seamless, personalized, self-service options for business and recreational government services. Our digital solution provide these options along with the efficiency and transparency that government agencies now require.

1 Empowering the Citizenry

Serving the commercial & residential community with Social, Mobile, Analytics & Cloud

2 It's all about Mobile

People of all ages doing civic business of all types while on the go.

3 Optimizing Internal Processes

Reducing tedious staff workloads, creating more time for higher value projects.

4 Seamless Installation & Integration

An experienced team taking care of everything for your peace of mind.

Find Services

Enable residential and commercial citizens to access all community services.

Pay Bills Online

Pay utility bills and other bills and fees online any time and from anywhere.

City Employment

Provide real-time access to all job opportunities in your city, county and state.

License & Permit

Licenses, permits, inspections and other services are now performed online.
